

# **Holiday Program Content Recommendations**

# Reasoning for Recommendations

Goal: Make smart strategic changes where appropriate.  
Not looking to blow it up and rework the entire program.

- Data shows some content isn't trending well in terms of views
- Alignment to industry calendar
- Flexibility to capitalize on opportunities (new trends, newsworthy items, etc.)
- SEO alignment
- Lots of data and guidance, but needs more fun
- Earlier Creative Team direction/theme

# **Pillars and Derivatives**

# Pillar Asset: Holiday Planning Guide

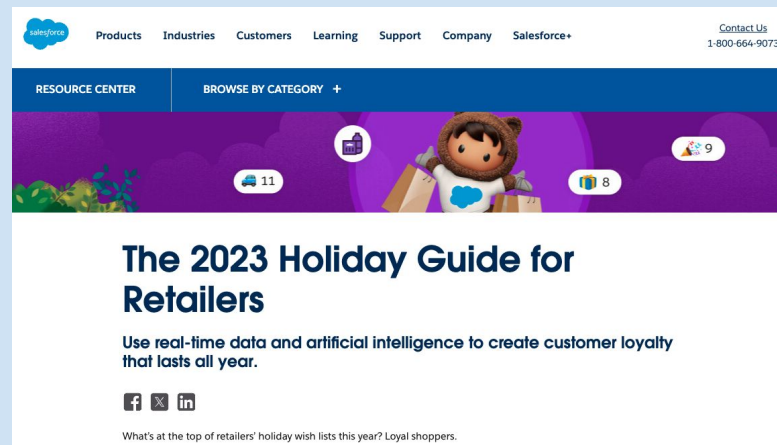

## FY25 Recommendation:

With views, CTA clicks, and form fills greatly decreasing in FY24, we're recommending a fuller update (to last two years):

- Chaptered to long-form article
- Theme/tone change - The Retail Holiday Planning Guide to Creating Life-Long Holiday Memories for Shoppers
  - Focus on Data and AI to personalize all the aspects of holiday shopping
- Re-evaluate results in FY26

## Derivatives:

- **Blogs**
  - **May:** Customer (TBD) POV on their holiday planning journey
  - **June:** Holiday Predictions Blog
  - **August:** How to Infuse AI into your Holiday Promotion Planning
  - **Sept:** Take the Next Step with E-commerce for the Holidays
  - **Oct:** Use AI to Make Last Minute Cyber Week Planning Changes

## Other Channels:

- **Social**
  - LinkedIn Newsletter Topics:
    - Holiday Predictions
    - Retail Media - Take advantage of holidays
  - Organic/Paid posts
  - Opportunities for Video?
- **Webinars**
  - Holiday Predictions
  - How Retailers Are Using AI for Holiday Planning
  - Retail Media Opportunities

# Pillar Asset: Loyalty Guide

## FY25 Recommendation:

No data yet from FY24 update, but recommend light updates only in FY25.

# Pillar Asset: Shopping Insights HQ

## FY25 Recommendation:

With limited bandwidth to cover everything (quarterly updates and year-round holiday opportunities, especially), need flexibility to cover the most impactful story at the time.

## Derivatives:

- **Blogs (All optional and a max of 4)**
  - **Shopping Index:**

# New Consideration Pillar Asset: How to Use Data to Empower Retailers to Drive Connected Experiences

## FY25 Recommendation:

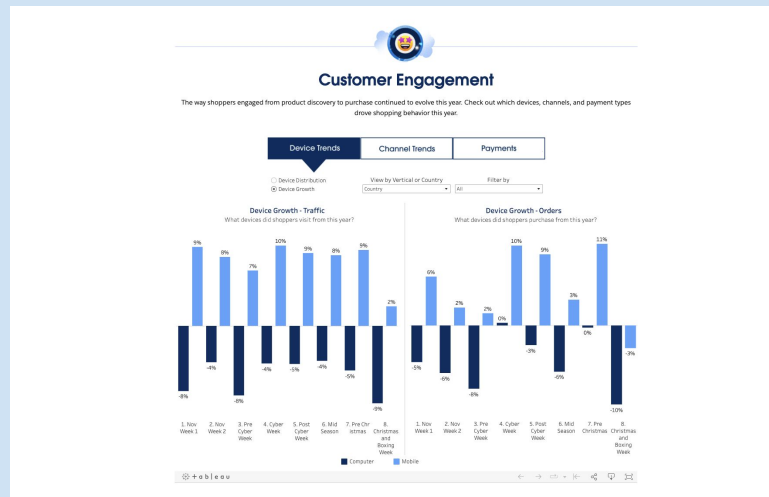

Replace the Forrester TEI Report with a deeper dive guide that helps retailers understand how data and the single view of the customer are the foundation to drive marketing strategy, service interactions, and commerce experiences.

It can be a bit more product-specific (can partner with Commerce Cloud, Tableau, etc.) to make an entertaining and informative how-to guide. It would hit on these areas (and others):

- Knowing your customer and what they're doing (including in-store)
- Collecting and personalizing in commerce
- Segmenting in Marketing Cloud
- Personalizing service experiences (tons of use cases, maybe not specific to Data Cloud but data in general)
- Driving customer loyalty

# Additional Items

**SEO:** In addition to the MASH SEO initiative, we'll reach out to the SEO team for help with:

- Aligning our ungated holiday content assets with the right keyword strategy for better ranking
- Possibility for a program SEO brief/plan
- Setting up a dashboard to track progress

**Creative:** Get the Creative Team collaboration and feedback on theme and design direction earlier in FY25

**Third-Party Influencer:** Explore the possibility of partnering with a third-party influencer:

- Full program partnership (not just single projects)
- Create their own content as well as promote ours

**Web:** Are we able to have bigger, more direct call outs to the Index hub and program?

- Splashier banner(s) on the Retail Industry Page
- Left Nav menu item

**Events:** How do we give holiday a bigger bang through our events and third party events - from booths to sessions?
